DESCRIPTION

Maxima 600 tender sloop is a sophisticated model that has both the nostalgic and the modern. A smooth hull with a rope fender and an integrated swim platform. The swim platform is ideal if you want to swim, but it also offers protection against the propeller of the motor. The swimming platform is also very useful for boarding and disembarking. Because the motor is mounted in the bun, this ensures a huge noise reduction. So enjoy the tendersloop.

This sloop is fast, the hull is ideal with a maximum of 60 hp but equally acceptable with a 10 hp for gentle cruising. But also the slow sailing makes this boat very stable, and good visibility ensure that you feel extremely comfortable while sailing.
