DESCRIPTION

The Viking 24 is the most popular addition to the highline specification made by renowned boat builders, Viking. This adaptable 4 berth family river cruiser boasts family-friendly accommodation and an impressive circular cockpit to make socialising easy on board, which also converts into a double berth bed or sunbed for when the opportunity of sunshine arises!

The core features include an open plan galley saloon, complete with a dining area, exceptional headroom throughout and large windows to let the natural light flood in. All cabins and adaptive lounge areas are incredibly comfortable.

Having plenty of space for everything and everyone on board and how easy Viking boats are to use, it is a great all rounder and we can see why it is so popular!
