CRUISE LIKE A VIKING

Viking Cruisers are built in the same factory and under the same ownership since the company's conception in the 1970's. These vessels are a classic sight on many of the UK's inland waterways and there are many good reasons for this.

Carefully crafted in Dunmow, Essex every Viking Cruiser is designed and engineered to deliver exceptional comfort, performance, and usability. Manufactured using only the highest quality materials and finishes by highly skilled and dedicated craftsmen, each boat sets out to exceed expectations.

Tingdene Boat Sales' four best-selling Viking models, the 24, 215, 275 and 300 have proven consistently popular amongst new and experienced boaters alike for many years.

The easy navigation, simple maintenance, compact size yet roomy and adaptable interiors make these built-to-last vessels the perfect addition to your families' leisure time.

Viking boats have always retained fantastic value for money considering the space and quality of boat you receive. Most expect a much higher price-point, as shown by some counterparts in the market, but Viking perfectly manage the balance of producing a high quality boat with a reasonable price tag that is suitable for all.

BRITISH BOAT BUILDERS SINCE 1970

Leaders in British boat manufacturing for over 50 years, Viking Cruisers are a well-known and respected name in the inland boating market.

Established in 1970 by three experienced boat builders, Viking Mouldings began life producing small river and speed boats from a small site in Essex. Nine years on, the business moved to the old Seamaster Boats site after its closure and purchased the 'Seamaster Moulds' brand name. Since then, Viking Cruises have continued to dominate the inland cruiser market and are a well-known and respected name in boat manufacturing within the industry and with boaters old and new.

Viking's manufacturing continues to utilise their original hull moulds throughout their ranges years on. If it's not broken, and all that!

Their newer hull designs include their narrow beam range, that has been purposely designed for the canals and narrow rivers of the UK's waterway system. Explore their most popular wide beam models within this brochure and see how a Viking Cruiser can enhance your leisure days and family memories that will last a lifetime.

THE BOATING LIFESTYLE

There are countless reasons why inland boating is such a popular way to spend your leisure time, and why so many set sail every summer and make memories on the water.

RELIEVE STRESS

It's official – boating is good for your health! A number of studies have shown that a little bit of boating fun each day can go a long way towards reducing stress and enhancing overall well-being. With the fresh air and the slower pace, boating will allow you to get back in touch with nature and with your inner self.

TIME WELL SPENT

No matter your age, boating is an activity for everyone to enjoy and be part of. It may come as a surprise, but the boating lifestyle doesn't revolve around the latest equipment or how flash your boat is; the best part of boating for many is simply being able to spend time with their loved ones. Recreational boating creates an atmosphere that brings people together and makes treasured memories to last a lifetime.

BETTER QUALITY OF LIFE

Leave your troubles on the shore – a boat is your ticket to 'Relaxation Island'. Recreational boating is an enriching experience that relieves stress and provides countless opportunities for self-discovery – whether it's learning how to water ski or simply enjoying the warm glow of an evening sunset. Ask boaters what they love about boating and they'll tell you the enjoyment and excitement boating provides is second-to-none.

Viking Cruisers has proven time and time again to be the leading manufacturer for first time boaters. Discover which model best suits your lifestyle and we'll see you on the water soon!

VIKING 215

If you're a fun seeking family looking for your next adventure this is a great place to start.

The ultimate craft in day boating or overnight escapes, the Viking 215 is ideal for anyone starting out on their boating journey. With easy transportation, manoeuvrability and featuring everything you would expect from an inland cruiser; open plan interior, fully fitted galley, toilet and shower room, plus spacious accommodation, the Viking 215 balances functionality with a keen sense of purpose to make your first experience on the water a total pleasure.

With plenty of room for up to eight aboard for daytime adventures or accommodation for four overnight, there's never been an easier way to have fun, make memories and embrace time with family and friends doing something different.

- Modern sleek lines
- Open plan interior
- Exceptional headroom (1.8m)
- Large windows letting natural light into the spacious cabin
- Comfortable accommodation for four people
- Fully equipped galley
- Toilet compartment with shower
- Bathing platform with rear access

A best-selling model from Viking Cruisers, the Viking 24 is the perfect family leisure cruiser.

The Viking 24 is the most popular choice amongst mid-range cruisers on the market. Excellent value for money considering all the many top-range features.

The 24 is an adaptable four-berth, six passenger river cruiser with family-friendly accommodation and an impressive circular cockpit, making it so easy to spend time together onboard. The choice of a double bed or sunbed gives you the freedom to move from the day to night on the water, and an open plan galley saloon and dining area, exceptional headroom throughout and large windows let the natural light flood in and create plenty of space.

Combined with the easy navigation and maintenance of the 24, this is the ideal all-round family cruiser.

- Modern styling throughout
- Wide beam giving extra stability and space
- 'U'-shaped dinette for meals and entertaining, converting to large double berth bed
- Double cabin under cockpit with opening windows
- Fully equipped galley
- Large toilet with shower compartment

VIKING 275

The Viking 275 cruiser is a fully adaptable cruiser that will work around you.

This 6-berth craft is incredibly spacious throughout with a twin helm seat, perfect for sharing your driving experiences with loved ones. Dine alfresco under the sun in the comfortable cockpit. The transom door provides easy access and flow of movement around the boat, making life onboard as easy as possible.

As always with a Viking River Cruiser alternative engines are available, including an electric version, giving an impressive 6-8 hour cruising time and the ability to charge via an integrated solar panel. A wide selection of options are also available so you can personalise your boat to how you wish to use it. The opportunities are endless with Viking's versatility!

- Airy, open plan design
- Plenty of space throughout the craft
- 'L'-shaped dinette for meals and entertaining converting to large double berth bed
- Double helm cockpit
- Double cabin with opening windows
- Fully equipped galley

ACCOMMODATION

Cabins - 2
Sleeps - 6
Passengers - 10

A combination of sporty looks and adaptable driving, this vessel is a real showstopper.

The Viking 300 has been designed to meander the rivers easier than ever before, while holding court among neighbouring vessels on the water.

Spacious throughout, the 300 is a perfect first-time family cruiser giving easy access to every area with an open-plan design, made even easier with a folding screen and transom door in the stern.

The internal layout is fully adaptable to your requirements, fitting up to seven guests' accommodation, and an extended bathing platform allows everyone onboard to relax in the good weather. Light shines through the large hull windows, creating blissful undisturbed visibility.

This beautiful family boat is guaranteed to enhance precious time with your loved ones.

- Open-plan living design
- Plenty of space and light flooded areas throughout
- Undisturbed panoramic views
- Comfortable, adaptable lounge areas to socialise and relax
- Double helm cockpit with lounge socialising area
- Bathing platform
- Fully equipped galley
- Premium materials and finishes throughout
